

# WE'RE TRIMMING TREES TO KEEP YOUR LIGHTS ON

In the coming weeks, Con Edison contractors will be trimming trees in your neighborhood. Overgrown and fallen tree limbs are the leading causes of power outages during storms. Carefully trimming and clearing trees around power lines help keep the lights on for you and your neighbors.

If we need to trim trees around your home, we will do everything to minimize the impact on the trees. We hire professional foresters who follow International Society of Arboriculture pruning guidelines. One of our foresters may contact you to discuss this work.

When you're planting trees, pick the right tree for the right place. Think about how large it will be when it's fully grown. For tips on picking the right tree, planting, and pruning, visit [coned.com](http://coned.com). For more information about work in your neighborhood, contact us at **1-800-75-CONED (1-800-752-6633)** or [BWlineclearance@coned.com](mailto:BWlineclearance@coned.com).

We trim trees to create these minimum distances between electric lines and the surrounding trees.

For more information, contact us at **1-800-75-CONED (1-800-752-6633)** or [BWlineclearance@coned.com](mailto:BWlineclearance@coned.com).

## IMPORTANT NOTICE FROM CON EDISON

### WE'RE TRIMMING TREES TO KEEP YOUR LIGHTS ON

**Dear Property Owner,**

Please complete and sign the reverse side, and hang it on your door for pickup tomorrow.

Some trees on your property have grown near the electric line(s) and we need to prune or remove them.

A Con Edison contractor will be trimming and clearing trees on the power-line right-of-way. We're scheduling this work to help prevent power outages during storms.

Our professional foresters complete this work at no expense to you and follow the International Society of Arboriculture guidelines.

**The work on your property is marked below.**

**Remove Trees**  
stumps and large logs remain onsite

---

---

---

**Prune Trees**

---

---

---

**Clear Right-of-Way**

selectively clear tall-growing, woody plants around the right-of-way that threaten service

---

---

**Apply Herbicides**

selectively apply herbicides registered and approved by the U.S. Environmental Protection Agency to control tall-growing, woody plants on the right-of-way

---

---

**Other**

---

---

**Work is scheduled to start after:**

---
