RE: STREET-LEVEL PHOTOGRAPHY COLLECTION IN WESTCHESTER COUNTY

---

- Westchester County has contracted with Pictometry International Inc. (Pictometry) of Rochester, New York to collect street-level photography throughout the County. This work will improve efficiency and fairness of property assessment, and will also assist emergency response.
- The bearer of this letter is a paid employee of Pictometry's sub-contractor Facet Technology Corporation (Facet), performing services related to this contract.
- Facet employees can be identified by "Facet Technology Corporation" signs on their vehicle and by possession of this letter which is to be presented upon request.
- As part of this work, a Facet employee will be driving along all roadways in the County, photographing properties from the public right-of-way. Their sole purpose is to capture these photographs of structures (or undeveloped lots) for this project.
- All work will be conducted in the public right-of-way and no entry onto private property is authorized or will be attempted.
- Facet employees have been instructed to briefly answer any questions about their work and to provide interested parties with the contact information below.

For further information please contact:  
Mr. David Jackson, Executive Director, Westchester County Tax Commission
